

Fast Fill Dispenser

Compac Fast Fill Dispenser is designed to reduce filling time by the use of 4 hose dispenser and ultra high flow rates.

Compac CNG Dispensers are of the highest quality and among the most accurate dispensers in the world.

All Compac CNG dispensers come complete with the Compac KG80 Coriolis Mass Flow Meter and the Compac C4000 Electronic Fuel Head.

Compac technology has been developed and tested specifically for these products to ensure that Compac Fast Fill Dispensers operate safely and reliably. All dispensers are ready to use as soon as they are delivered.

Features:

- Four vehicles can be filled simultaneously with this dispenser, at increased flow rates
- Actual filling time reduced by at least 25%
- The dispenser is designed in such a way that it occupies the same space as occupied by a standard hose dispenser, thereby minimising the space requirements
- Higher station efficiency due to reduced filling time and lower space requirement
