

FillMaster

Choose the Compac
FillMaster for a
refuelling solution that
provides simple fuel
management features
to smaller sites.

FillMaster brings together the best of Compac's Master pump and the Comfill.

Utilising Compac's latest technology, the FillMaster is an ideal solution for small to medium sized, in-house refuelling requirements.

Features

- Easy to setup
- C5000 electronics
- Stand alone pump (up to 2 hoses)
- Authorisation options - Pin / HID / Card
- Tank Gauging options - automatic or virtual
- Supports up to 4 pumps via pump comms (Compac, Gilbarco, PEC protocol)
- In-built Fuel Management (CompacOnsite) - store user information, record transactions
- Site data accessible with CompacOnsite (via web browser) - no fees required

Fuel Management with CompacOnsite

CompacOnsite is the ideal solution for remote management of data.

From any web browser, you have access to all your site data, 24/7.

Main Features of CompacOnsite

- **Manage Customer Account Cards** - view transactions, validate or invalidate cards, update user details
- **View Transactions**
- **Tank Gauging** - monitor tank levels, temperature, safe fill level and other important information. Virtual Tank Gauging also available
- **Reporting** - export information in CSV format
- **Memory Size** - 200 cards, 2000 transactions

Advantages of CompacOnsite

- **Remote Access** - allows you to manage your site 24/7, from anywhere with internet access
- **User-Friendly** - very little training is required to use CompacOnsite
- **No Software Hassles** - no software to install or maintain, saves you time and computer memory, and you are not limited to having to use the same computer everytime

Security is our Priority

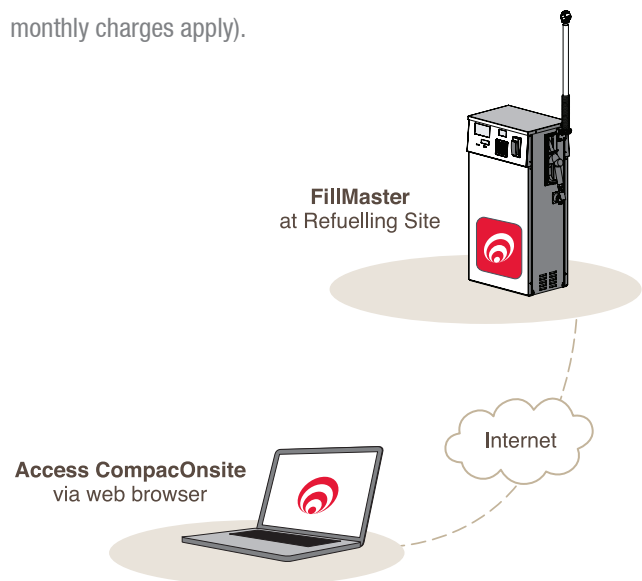

- All data is stored in the FillMaster at your site
- Access is only over SSL (HTTPS) with login and password
